

Bilel BOUGHLEM

Student in Networks and Telecommunications,
specialised in Cybersecurity

3rd year student in a Bachelor of Technology in Networks and Telecommunications, passionate and versatile, I am seeking a position in Cybersecurity. Curious by nature, I easily adapt to new situations and approach them with interest.

 97410, Réunion Island

 <https://bilboug.github.io>

Languages

- French (common use)
- B2 English (Cambridge certified)
- Arabic (common use)
- Spanish (school level)

Hobbies

Football, reading and running.

Formation

3rd year in Bachelor of Technology (2025 - 2026)

Specialised in **Cybersecurity**

IUT de Terre-Sainte, La Réunion

Experiences

10-week internship at the Information Systems
Department of the Saint-Pierre Town Hall

- Deployment of an **OpenNMS** monitoring solution (installation and configuration of 200+ devices).
- **Automation** using **Shell** scripts and **PostgreSQL**, with optimization of the network topology map.
- Development of a **PHP** tool to manage the topology.

Tools : OpenNMS, Shell, PHP, PostgreSQL, SNMP, UniFi.

Student Projects

1st year project : Building a computer network for a structure.

Creation and configuration of complete network and VLAN topologies including services such as:

- **DHCP, SSH, FTP, HTTP**, and **pfSense** using GNS3,
- **DHCP, Samba**, and **Moodle** on physical equipment.

2nd year project : Pentesting method

Completion of multiple **CTF** (Capture The Flag) challenges on vulnerable machines from VulnHub and other sources.

Skills

Network and system administration : VLAN, OSPF, VPN, HTTP, DHCP, DNS, FTP, SMTP...

Database

MySQL

MariaDB

Virtualisation

vmware

Development

Cybersecurity

Project management

Network monitoring
